CAREER OBJECTIVE

I am a **B.Tech Computer Science and Engineering** student with strong skills in programming, problem-solving, and web development. Seeking an **internship opportunity** to apply academic knowledge in a practical environment, contribute to real-world projects, and further enhance technical and professional skills.

PROJECTS

E-commerce Website: [my-website](#)

A full-featured online shopping platform built using the **MERN stack**, featuring:

- Shopping cart with checkout process (shipping, payment method, PayPal/credit card integration)
- Product reviews, ratings, pagination, search, and top products carousel
- User profile with order history and management options
- Admin dashboard for product, user, and order management with delivery status tracking
- Database seeder for initializing products and users

EDUCATION

2023 – present	Bachelor's Degree at KIET (Krishna Institute of Engineering and Technology, Ghaziabad) (SGPA: 7.86/10)	
2022	Class 12th, UP Board	(75%)
2020	Class 10th, UP Board	(78%)

ACHIEVEMENTS

- Solved over **15,000+ problems** across multiple competitive programming and problem-solving platforms including **Codeforces**, **CodeChef**, and **LeetCode**.
- Individually solved more than **1,000+ problems on LeetCode**, covering diverse data structures and algorithmic topics, with a maximum rating of **1731**.
- Participated in multiple **hackathons** as a **backend developer**, contributing to the development and deployment of full-stack applications.
- View my profiles on [Codolio](#).

SKILLS

- Object-Oriented Programming (OOP), Java , Data Structures and Algorithms, Competitive Programming, JavaScript, MERN (MongoDB, Express.js, React.js, Node.js), Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn), C, C++
